

## **Student and University Alumni Associations of Europe on the Russian War of Aggression against Ukraine. Call for Help and Solidarity with our Ukrainian Friends.**

On 24.02.2022, Russia launched a war of aggression on neighbouring Ukraine - a free and democratic state of Europe. The invasion brings immeasurable suffering to a country that has already been painfully suffering for eight years from the consequences of the illegal annexation of Crimea and the war in the Donbas.

At the same time, it is an attack on the fundamental values of Europe, the United Nations, and a massive breach of international law. The renunciation of violence and the preservation of Ukraine's territorial integrity and sovereignty have been broken by Russia.

As students, university alumni, young scholars, and Europeans, strongly condemn the actions of the Russian Federation and strongly support our friends and neighbours in Ukraine.

The Ukrainian as well as the Russian civil society did not want this war and did not trigger it. However, the people are the greatest victims of this disastrous decision by President Putin based on his neo-imperialist aspirations and instrumentalised history.

We therefore stand in solidarity with the Ukrainian people and with all citizens throughout Europe and in Russia who stand up for peace, freedom, and equality. We also express our united solidarity with our fellow students and scholars in Ukraine and stand ready to support them. We call on all committed young Europeans to help Ukraine in this difficult situation.

The following organisations and agencies can provide direct and immediate help on the ground or to the people fleeing. We – as signatories of this call and representatives of students and alumni across Europe – support these NGOs and initiatives and kindly ask you to contribute as well. Please feel free to share and raise awareness.
